Metal Cutting Abrasive Cut Off Saw - CS 23-355

355mm

ORDER CODE:	P587
MODEL:	CS 23-355
Disc Diameter (mm):	355
Bit Retainer Diameter (mm):	25.4
Maximum Cutting Dimensions (mm):	Bar: 65 & Pipes: 125 & Shaped: 115 x 130
Maximum Opening Of Vice Jaws (mm):	238
No Load Speed (rpm):	4000
Motor Power (kW):	2.3
Voltage (V):	240
Nett Weight (kg):	16.9

Description

METAL CUTTING ABRASIVE CUT OFF SAW CS 23-355 - 240V

The CS 23-355 is powerful 2300W 240V Metal cutting chop saw. Designed for use with abrasive wheels this machine will produce precise cuts in steel, non-ferrous metals, iron and cast profiles. Coupled with high performance statistics this machine has been designed with ease of use and transportation in mind.

Features

- For single phase 240V alternating current
- Especially suitable for the fast, precise cutting of steel, non-ferrous metals, iron and cast profile
- Motor and gear with ball bearing and designed for high loads
- Spindle lock for easy disc change
- Quick clamping device with variable mitre conversion up to 45° on both sides
- Easy to transport due to built-in handle and locking device
- Swivelling blade guard
- Adjustable spark guide plate
- Bottom access guard
- Adjustable depth guide
