Product Brochure For A195

Industrial Automatic Compressed Air Condensate Drain - SCE-8

/4"+1/2" inlet and 1/2" outlet BSP or NPT

Ex GST	Inc GST
$550.00	$605.00

ORDER CODE:	A195
MODEL:	SCE-8
Type:	~
Inlet & Outlet Thread:	1/4"+1/2" inlet and 1/2" outlet BSP or NPT
Includes Pressure Gauge:	~
Includes Mounting Bracket:	~
Filtration Micron Capacity:	~
Max Flow ((L/min):	~
Maximum Pressure:	0 - 16 BAR
Gauge Diameter:	~
Voltage:	24 - 240V AC/DC 50-60Hz (± 10%)
Suits:	C521 - C525 - C526 - C529

Description

The SCE 8 or FLUIDRAIN-COMBO is an all-in-one timer drain with an integrated ball valve and strainer. The SCE 8 or FLUIDRAIN-COMBO saves installation time and protects against large particles found in condensate, thanks to the integrated ball valve and strainer.
The unit can be shut off from the compressed air system, enabling easy and safe work to be carried out.
The SCE 8 or FLUIDRAIN-COMBO can be installed on all compressed air system components (compressors, after coolers, dryers, filters, pressure vessels and drip legs), regardless of their size or capacity - simply adjust the interval and discharge settings to suit the particular compressed air system.

Features

- Pneumatic, mechanical, electrical and Zero Loss maximum energy efficiency type to suit every application
