Description

Need precise speed control for delicate jobs? That's why we added an inverter drive to our PH-19 and created a variable-speed power hammer that more shops can afford.

Recommended for: Small automotive and airplane shops with limited space and/or budgets, as well as schools and educational institutions.

Features

- Delivers enough force to shape 1.6mm mild steel
- 482mm throat allows you get deep into panels and covers most metal shaping projects
- Adjustable speed from 100 to 1,500 to beats per minute
- You can control the speed either by foot pedal or the control box on the side of the machine
- Plug it into any 240-volt power outlet
- Quick-release tooling handle lets you start in the middle of a panel while keeping the pressure constant
- Tooling changes take just a few seconds and don't require any hand tools
- Comes standard with a mini thumbnail shrinker die set
- Wide variety of tooling available for shrinking, stretching, planishing, and drastic metal shaping
- Heavy 12.7mm plate steel frame and rigid steel stand enable this power hammer to hit with full force and prevent deflection
- Small footprint saves space in smaller shops
- Wheels on the base make it easy to move out of the way
- Tooling and replacement parts are available
