Safeway CBN 140 Grinding Wheel

For Grinding 12-26mm HSS Drill Bits
 Suits SA-2500 Drill Sharpener

Ex GST
\$320.00

Inc GST
\$352.00

ORDER CODE:	D115A
Type:	CBN 140 Wheel
Grinding - Drill Bit Type:	HSS
Sharpening Range (mm):	12 - 26
Suits Grinding Machine:	SA-2500

Description

What is CBN (Cubic Boron Nitride)? CBN abrasive is a similar product to synthetic industrial diamonds.

CBN is composed of nitrogen and boron as very very hard crystals - second in hardness only to diamond. A single layer of CBN grit on the surface of a metal wheel can grind the hardest steel and last for many years. Our electroplated CBN grinding wheels are machined from solid steel, electroplated with a layer of CBN grit and nickel plated.

A CBN wheel is far better suited for sharpening high speed steels and will withstand the friction from grinding with much less heat produced than with a diamond wheel.

Features

- 90 x 20 x 15.875mm (Diameter x Wide x Bore)
- CBN 140 for Carbide
