Product Brochure For D115C

Safeway CBN 300 Grinding Wheel

For Grinding 12-26mm Carbide Drill Bits
Suits SA-2500 Drill Sharpener

ORDER CODE:	D115C
Type:	CBN 300 Wheel
Grinding - Drill Bit Type:	Carbide
Sharpening Range (mm):	12 - 26
Suits Grinding Machine:	SA-2500

SAFEWAY

Made in Taiwan

Description

What is CBN (Cubic Boron Nitride)? CBN abrasive is a similar product to synthetic industrial diamonds.

CBN is composed of nitrogen and boron as very very hard crystals - second in hardness only to diamond. A single layer of CBN grit on the surface of a metal wheel can grind the hardest steel and last for many years.
Our electroplated CBN grinding wheels are machined from solid steel, electroplated with a layer of CBN grit and nickel plated.

A CBN 300 wheel is far better suited for sharpening carbide and will withstand the friction from grinding with much less heat produced than with a diamond wheel.

Features

- 90 x 20 x 15.875mm (Diameter x Wide x Bore)
- CBN 300 for Carbide
