Number of Pieces (No.):	51
Set Type:	Metric
Drill Size Steps:	0.1mm
Drill Size Range:	1 - 6mm
Nett Weight (kg):	1.7

Description

Alcock drill bits are manufactured from M2 High-Speed Steel, renowned as the highest-grade material for superior drilling performance and durability. Each drill bit features precision-ground flutes and a 135° cutting point angle, optimized for industrial applications.

The 135° cutting point ensures smoother cutting in steel by effectively dispersing heat away from the drill's center, enhancing longevity and performance. Additionally, the drill bits are engineered with a split-point design, minimizing material resistance at the tip. This innovative feature eliminates the need for a pilot drill, reduces wandering, and ensures effortless, accurate drilling every time.

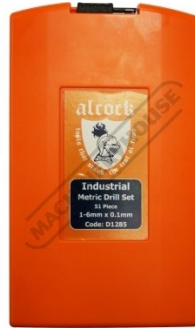

This kit is designed for ultimate precision, featuring drill bit sizes that increase in precise 0.1mm increments. This level of accuracy is essential when choosing the right drill bit for a specific tap.
