Description

Professional Knives:
High performance and high durability professional hand knives, Starrett® brings to butchers, slaughterhouses, supermarkets and food processing industry professional, hand knives with selected martensitic stainless steel, resulting in accurate cuts, longer life, with quality that you already know.

NSF Certification (National Sanitary Foundation):
All the products of the new Starrett® Professional knives Line are certified by the NSF, an international organisation considered one of the most renowned in the development of specific standards for the public health and environmental protection.

Blades made of martensitic stainless steel.
Non-toxic and virgin polymers.
Continuous and smooths surfaces, without gaps to prevent residue.

Sanitised® Antimicrobial Protection Handles:
The hygiene of the new Starrett® line of knives is ensured by the Sanitised® Antimicrobial protection of the handles. This pioneer method was developed in Switzerland and inhibits the growth of bacteria, fungi, since it interrupts the nutritional cycle of these organisms and prevents their proliferation.

Sharpening Steels & Protector:
Ensuring the highest level of durability of our new line of hand knives, Starrett® also launched a line of professional sharpening steels and a unique protector.

Sharpening Stone:
Starrett® has developed a sharpening stone to add even more value to its new professional hand life line. Sharpening steels complete the line in this industry sector, for quality sharpening and a desired cutting edge.
