Opening (mm):	~
Size:	~
Quantity Per Pack (No.):	10
Clamping Force (kg):	~
Over all Length (mm):	~
Nett Weight (kg):	~

Description

The Stubby Cleco is a shorter version of the standard spring-loaded Cleco fastener, designed for use in tight or confined spaces. The body measures 40mm end to end. Cleco fasteners provide a quick, reliable way to temporarily clamp panels together during test fitting, drilling, welding, or riveting. Unlike permanent rivets, they install and remove in seconds using Cleco pliers and can be reused countless times.

To use, simply drill a 1/8” (3.2mm) hole through the panels, compress the fastener with Cleco pliers, insert it into the hole, and release to lock it in place. The spring-loaded design holds the sheets securely together without causing damage. To remove, just squeeze again and lift it out.

Features

- Fits 1/8” (3.2mm) holes
- Shorter body length (40mm) - ideal for use in tight spaces
- Supplied in packets of 10
- Grip range 0 to 1/4" (0 to 6.35mm) total material thickness
- Reusable countless times
