| Graduated Scale (mm): | 180 |
| Resolution (deg): | ~ |

Made in Taiwan

1 YEAR WARRANTY

## Description

The perfect bundle for those who live in the shed.

The Toolmaster Digital Angle Rule is a precision tool that can measure angle and length accurately and quickly. The rules are made from corrosion resistant stainless steel. The battery life is around 200 hours and is protected by auto shut down after 6 minutes.

PLUS: The new HAFCO Precision Digital Calipers provide Metric, Imperial, and Fractional measurements, all displayed clearly on a large LCD screen for easy reading.

PLUS: The Toolmaster Digital Bevel Box is a compact protractor that measures angles in 4 x 90° increments with 0.1° resolution and automatically shuts off after 5 minutes. Its small size makes it portable enough to fit in your pocket, and the easy-to-read LCD screen ensures convenience. Magnets in the base provide stability and accuracy when measuring mitre and bevel angles on tools like mitre saws and saw benches.

PLUS: A Hare & Forbes Laser-cut stainless steel bottle opener.

PLUS: A Magnetic Stubby cooler - keep it on your fridge, tool chest or any metal surface so its always at arms length when you need a cold drink.

## Includes
