Description

The Hafco Woodmaster BP-355H Bandsaw has been professionally upgraded to meet the specific safety and operational requirements set by the NSW Department of Education. Modifications include upgraded switchgear, emergency stop systems, and enhanced safety controls to ensure compliance with current school-based risk management standards. Each unit is carefully inspected and certified for use in NSW school environments, providing peace of mind for educators and administrators.

Powered by a robust 1.7kW (2.25hp) 240V motor the BP-355H delivers a generous cutting capacity of up to 300mm in height and balanced Ø355mm cast iron wheels reduce vibration and maintain blade speed for a smooth and consistent cut.

For over 40 years, Hare & Forbes Machineryhouse has proudly partnered with schools, TAFEs, and trade training centres across Australia, supplying a wide range of machinery. Throughout this time, we have developed an in-depth understanding of each state's unique requirements, enabling us to deliver tailored, compliant solutions for your next machinery purchase.
