20" Thicknesser - Spiral Cutterhead - T-508S, 415V

Built to School Specifications
NSW DOE Item 16B

Please Call

ORDER CODE:	K8177
NSW DOE Item No.:	16B
QLD DOE Item No.:	~
MODEL:	Schools / TAFE T-508S
Width Capacity (mm):	508
Height Capacity (mm):	200
HSS Cutter Blades:	~
Spiral Cutter Head - Carbide Insert:	Yes
Motor Power (kW / hp):	3.75 / 5
Voltage / Amperage (V / amp):	415
Nett Weight (kg):	420

HAFCO WOODMASTER

2 YEAR WARRANTY

NO PLUG 415V

Description

The Hafco T-508S Spiral Cutter Head Thicknesser is designed and engineered to meet the demands of even the toughest woodworking workshops!

Constructed from robust cast iron, its solid base, feed tables, and cutter head ensure stability and excellent vibration absorption. Exceptional power is provided by a 3.75kW / 5hp 415V induction motor, housed in the base, which drives the cutter block via a twin-pulley V-belt system. Solid cast iron extension tables are fitted at both the front and rear, enhancing timber support, while a digital height gauge ensures precise and accurate adjustments.

The standout feature of this machine is its spiral cutter head. Featuring four rows of tungsten carbide cutters, it delivers an almost flawless finish. The cutters are arranged to produce a super-clean shear cut, with each cutter having four edges, allowing you to rotate to a fresh edge when needed. Damaged cutters can be replaced individually, minimizing waste and reducing costs. Each edge lasts up to 10 times longer than traditional HSS blades, significantly reducing downtime. Furthermore, the cutter head requires no blade setting, saving time and guaranteeing consistent accuracy.

Features

- 508mm wide x 200mm high timber capacity
- Dynamically balanced 4 row spiral cutter head with 126 TCT indexing cutters
- Carbide inserts incorporate 4 cutting edges for reduced vibration
- Powerful 3.75kW, 5hp 415V induction motor
- Cutting speed 5000 rpm
- 2 speed (4.8 & 6m/min) feed rollers with pressure adjustment
- Ø125mm (5") dust port for efficient dust extraction
- Easy to read digital height gauge
- Table height locking mechanism secures all four pillars against unwanted movement.
- Heavy duty four post design with protective concertina covers

Safety Features

- Anti kick back fingers
- Cutter head cover with integrated tool-locking mechanism
- Additional guarding installed on both sides of the machine to ensure maximum operator safety.
- DOL starter switch with overload protection and raised red stop button
- Keyed isolation switch - PWD approved

Includes

- Digital Height Gauge
