Product Brochure For L78200

Industrial Sheet Fiber Laser - BODOR C12 CE 12kW

12200 x 2500mm Table
Includes Automatic Sheet Exchange Tables

ORDER CODE:	L78200
MODEL (Type):	C Series C12-12kW
Laser Power (kW):	12
Cutting Table Capacity (mm):	12200 x 2500
Tube Size Range:	~
Max acceleration (G):	1.5
Positioning accuracy (mm):	±0.05
Repeatability (mm):	±0.03
Rapid Traverse (m/min):	110
Laser Type:	Fiber Laser
Laser Source:	BodorPower
Laser Head:	BodorGenius
Control System:	BodorThinker
Transfer Table - Motorised:	Yes
Max. Load Capacity Per Table (kg):	7368
Active Obstacle Avoidance:	Yes
One-Click Processing:	Yes
Visual Collision Avoidance:	Yes
Intelligent Remnant Layout:	Yes
Lightning Piercing:	Yes
High Speed Cutting Expert Database:	Yes
Auto Focus Laser Head:	Yes
Anti-Burning Mineral Casting Plate:	Yes
Nesting Software:	Yes -Compatible with Tekla
Drawing File (Type):	G Code, DXF, DWG
Nett Weight (kg):	32500
Machine Size (mm):	29310 x 4050 x 2550

bodor

1 YEAR WARRANTY

Description

The Bodor C series brings a new level of productivity to the field of metal processing. Designed for high efficiency and cost-effectiveness, it meets the demands of modern production. Its advanced technology combined with economic benefits offers an ideal cutting solution for businesses of all sizes, excelling in precision, speed, and cost control. Durable construction and advanced materials extend the machine's life, reducing repair and maintenance costs.Its comprehensive design and laser protective glass ensure maximum safety for operators.
C series is fast and cost-effective, making it an essential tool for metal cutting in various industries.

Features

- Visual collision avoidance - Our intelligent visual collision avoidance technology is able to detect motions and signal warnings to prevent possible collisions. You can select either high or low sensitivity modes to ensure operator's safety, no longer worrying about safety issues
- Active obstacle avoidance system - BodorGenius, Bodor’s intelligent laser head, uses sensors and algorithms to detect potential obstacles like tilting parts and automatically avoids a potential collision. It largely ensures the stability as well as operating efficiency in the cutting process.
- One-click processing Set - up your tasks ahead of time and let C series do the rest. Once the operation begins, C series will automatically complete edge searching, range checking, and cutting one after another. With C series, you can finish batch production easily without any repetitive procedures.
- Anti-burning mineral casting - Bodor's newly developed anti-burning casting material provides numerous advantages in slag removal, operations, and modular design. When in use, material residue automatically separates from the anti-burning plate, largely lowering maintenance costs and offering better durability. Its lightweight structure as well makes it easy to replace.
- Lightning piercing - The technology offers rapid, precise piercing with reduced time. It features monitored processes for efficiency, automatic focus adjustment for seamless piercing, and integration with Bodor Genius. This enables quick piercing in sync with the cutting head's movement, optimizing operations for medium-thick plates without additional time or motion.
- Intelligent remnant layout - To achieve maximum material utilization, all you need to do is uploading pictures of the remnant to the control system with your mobile phone. C series is able to automatically finish positioning as well as nesting. The higher the percentage of utilization, the more economical the process. Enjoy the benefits of significantly increased cost savings.
- Auto Focus - Applicable to various focal lengths, which are controlled by machine tool control system. Focal point will be automatically adjusted in cutting process to achieve the best cutting effect of different thicknesses sheets metal.
- Nesting software - Auto nest up to 50 individual parts, ensuring maximum efficiency and less waste.

Includes

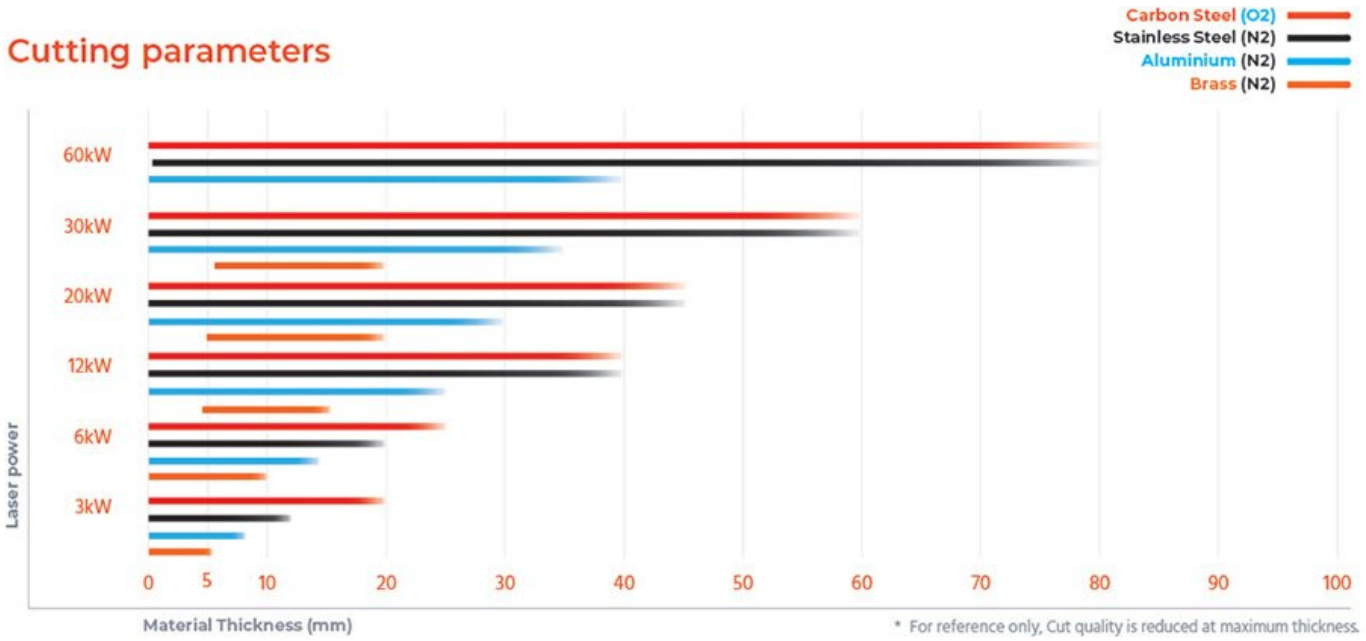

- Bodor’s Genius: cutting head with programmable motorised lens and Collision Protection
- Bodor Power: is the backbone of any laser cutting system, and BodorPower takes it to the next level. This original laser source is the key to Bodor’s high power processing (up to 60kW). It ensures longer lifespans, safer operations, and superior cutting results of every Bodor cutting machine.

- BodorThinker: serves as the intelligent core of Bodor's laser cutting solutions. This control system integrates seamlessly with MES and ERP systems, facilitating automated production process management and information exchange through standardised communication protocols.
- Full Class one laser safety enclosure with door interlocks
- Cutting view camera
- 21" LCD screen
- Local Service and Support
- Oxygen & Nitrogen Regulators with hoses
- *12 month warranty on machine parts & labor
- Commissioning & Testing Included (Metro Areas)
- Comprehensive Operator Training Included (Metro Areas)
- *Five year factory warranty on - Bodor Thinker Control System, Bodor Power Laser Source, Bodor Genius Laser Head.

Optional Accessories

- MMF-12L - Laser Fume Extraction 15kW (W2726)
- Laser Scanning Cutting
