Marker (Type):	~ & Ink
Marker / Refills (Qty):	~

Description

The HAFCO Deep Hole Liquid Marker is a versatile, high-performance marking tool designed for tradespeople, construction, workshops and general maintenance applications. Its slim, extended tip allows you to mark up to 28mm deep inside holes 3.5mm or wider, making it ideal for marking hard-to-reach and recessed areas.

The durable marking tip provides two line-width options, allowing you to select between a 2.5mm line on the outer side of the tip or a 1mm line on the opposite side for more precise marking.

Featuring high-visibility white ink, the marker delivers clear, consistent marks and performs particularly well on dry surfaces. The holster-style cap allows for quick, convenient one-handed operation, while the integrated clip makes the marker easy to carry and keep accessible on the job.

Features

- Deep Hole Marking – Marks up to 28mm deep in holes 3.5mm or wider
- Dual Line-Width Tip – 2.5mm line width on the outer side and 1mm line width on the opposite side
- Extended Marking Tip – Designed to reach deep and recessed areas
- Durable Tip – Built for reliable performance and repeated use
- High-Visibility White Ink – Produces clear, easy-to-see markings
