BOSSWELD

### Description

This multipurpose system that uses disposable gas cylinders is ideal for all your professional welding & brazing applications. such as air conditioning, plumbing and refrigeration. Ideal for highly-mobile tradespeople as well as working in hard-to-reach areas

This has been specifically designed for use with 1 each of disposable Mapp & Oxygen gas cylinders. This leads to a number of advantages: firstly, the gas cylinders are bought outright, so there are no ongoing cylinder rental payments. Secondly, the gas cylinders are lightweight and much less cumbersome than even the smallest refillable gas cylinder available, making the Brazen 3000 convenient to take anywhere.

Features Oxygen regulator with gauge shows cylinder content Fuel gas regulator with gauge shows delivery pressure. Both regulators with built in safety device, Comfortable well balanced torch, 2.5m Oxygen / Fuel hose set, Light weight & heavy duty carry case. Made to International standards.
