Weight - Mask Body Only (g):	
Total Weight - Mask + Filter (g):	

Description

Protect yourself from particles, bacteria, pollution, dust and smoke with our O2 Disposable P2 Valved Respirator. They are lightweight and contour-fit for comfort, with an exhalation valve to allow for easy breathing. The adjustable nose seal made from Ethylene Vinyl Acetate (EVA) provides a snug fit and full seal and allows for clear vision, tucking nicely underneath protective eyewear and safety glasses while being used. Latex-free twin elastic straps hold the mask in place without risking allergic reaction.

Approved to AS/NZS 1716:2012-P2 standards, the O2 Disposable P2 Valved Respirator protects against at least 94% of both particles and bacteria that are down to 0.3 microns in size, as well as pollution, dust and smoke, allowing them to be used in situations where dirty air is present. As a comparison, the blue “Covid Facemask” is rated ASTM Level 2 and protects against bacteria down to 3 full microns in size, meaning the P2 Valved Respirator protects against bacteria up to ten times smaller.

Features

- Lightweight disposable respirator
- Contour fit
- Exhalation valve for easy breathing
- Clear vision
- Maintenance free
- Latex free twin elastic straps
- Adjustable nosebridge allows snug fit to a range of face shapes and sizes
- Comfortable EVA nose seal
- Approved to AS/NZS 1716:2012-P2
