Application:	Oxide Removal
Type:	~
Grit:	~
Diameter (mm):	155
Bore (mm):	25
Speed Rating (rpm):	700
Rotation:	Clockwise

Made in Germany

Description

Components cut with oxygen have oxide layers on the cut edges. These dark layers are removed with the oxide brushes. The oxide brush is characterized by an innovative, multi-row arrangement of a specially developed wire set. The arrangement enables optimum oxide layer removal and ensures metallically bright cut edges with a long lifetime at the same time.

Features

- Double row heavy duty wire brush
- Made in Germany
