METALMASTER

Description

The Professional deburring discs feature a double row of abrasive which provides greater flexibility. By dividing the facing width this design allows the disc to provide a uniform pressure ratio and provides better results on smaller cut outs with profiles.

Features

- 120G Silicon Carbide best suitable for aluminium and plastic applications and achieves good edge rounding on internal and external profiles
- Unique design consisting of Non-woven abrasive and Silicon Carbide abrasive
- Double row abrasive provides greater flexibility and better results
- Made in Germany
