Duty Cycle:	~
Suits Plasma Cutting Unit:	Powermax SYNC Models

Description

With simple, twist-on consumable installation, and convenient power and amperage adjustment controls on handheld models, SmartSYNC® torches for Hypertherm's new Powermax45/65/85/105 SYNC® plasma systems allow the operator to change consumables and applications without returning to the power supply. This reduces consumable change time to about 10 seconds and automatically sets the system for the cartridge, minimizing downtime, troubleshooting, waste and training time.

Features

- Suits Powermax SYNC Models
