IBM system for Windows 2000 or Later

ORDER CODE:	Q4081
Length (Metre):	~
Includes:	~
Suits:	Q210

Description

DATA INTERFACE CABLE Q4081 (40-4081)

Used to transfer data from Q210 (36-210) height gauge.

Measumax digital USB option, allows for the interface of certain height gauges with a computer using the USB port of a computer. No program is required with the data directly downloaded to Excel.

The Measumax data Interface system is a fast and easy to use data transfer system, with statistical analysing for every quality control situation. It is designed to be used by both experts and novices alike.

Easy to use is one of the key features of the data transfer system. With just a few clicks of the mouse you are ready to enter the data directly onto an excel spread sheet template supplied or into any other excel template. To record the data select the excel field that will store the data and then press "DATA" on the transfer box and the entry will be recorded. Each time the data is entered the record will be entered down the page.
