Product Brochure For R8175

Scroll Chuck - 100mm - with Bonus 50mm Face Plate Ring - SC4

Suits Wood Lathes

Note: Requires Insert Adaptor To Suit Your Lathe

ORDER CODE:	R8175
MODEL:	SC4
Type:	Scroll Chuck
No. of Piece:	~
Size:	100mm
Internal Thread:	M40 x 2.0mm
External Thread:	~
Suits:	Wood Lathes

Description

The SC4 is perfect for the demanding woodturner, being capable of holding large work pieces yet possessing the precision and compactness to handle more delicate work. This model features an enclosed back with full indexing plate and has pinions driven by a long ball ended hex key to make access easy, even when large work pieces are mounted.

The improved and enlarged jaw slides give unsurpassed holding power and load bearing ability. They are made from high tensile steel, reinforced with nickel and copper and heat-treated to ensure superior strength. This chuck is an insert model which means it is easily future proofed against upgrades and can be used on multiple lathes, even if they have different spindle threads (additional optional inserts required).

Supplied complete with woodworm screw, 50mm standard jaw set, to suit virtually any lathe, this chuck offers professional performance at an exceptionally affordable price.

NOTE: Thread Insert NOT included

Features

- Made from heat treated high tensile steel and reinforced with copper & nickel
- CNC machined to high accuracy & tolerances
- Extra wide jaws guides providing superior grip
- Gripping internally and externally
- Heavy duty design for large work piece
- Indexing back plate, 72 holes in 5 degree intervals
- Threaded hole to lock optional insert adaptor for when reversing lathe direction
- Suits insert adaptor thread M40 x 2.0mm
