Description

62336 Mini Spigot Jaws with 13mm Bore

To complement the new pin jaws, the mini spigot jaws have also been improved. These jaws perform many of the same tasks in expansion and the extra screw hole profiles and added teeth to the outside provide tremendous grip for when this area will not be visible in the finished work piece. This set has been given a 13 mm internal diameter, making it ideal for turning strong spigots on knobs and handles, again adding to their versatility.

Features

- Expansion: 26 - 46mm
- Contraction Spigot: 13 - 33mm
- Contraction Square: 11 - 31mm
