Description

This unique woodcarving package of 12 carving tool profiles plus bonus DVD and booklet represents incredible value. Ideal for woodworkers of all skill levels from the complete novice to the seasoned professional.

Each tool is manufactured from spring alloy steel, developed to retain their cutting edge and resistance to corrosion. The ergonomically shaped handles are suitable for both hand and mallet work. A substantial tang secures the blade into the handle to ensure strength and durability, locked in place by a ferule preventing the handle from splitting.

It also includes an excellent tuitional DVD and booklet from internationally acclaimed carver and teacher Mike Davies. Mike is an accomplished and highly experienced woodcarver, having served his apprenticeship in the UK and completed work for royalty, national trusts and private collectors alike.

Mike has developed his unique and highly successful 'carving by numbers' system as a way to impart his years of expertise and teaching experience in a logical and easy to understand fashion, ideal for the novice carving enthusiast. This DVD features his Significant Six carving techniques that will form a solid foundation upon which the aspiring woodcarver’s skills can be built. By following Mike’s proven system the viewer will soon be creating a collection of attractive projects and designs using a basic set of 12 tools.

Included in this educational package:
- Tool talk
- Sharpening & maintenance
- The significant six techniques
- Timber selection
- Basic flower project
- Practice makes perfect project
- Tips and tools
- 16 Page full colour companion booklet containing a collection of projects to put your skill to the test
