METALMASTER

### Description

Straight T-dollies are used to form flanges and edges by hammering the metal with a hammer or slapper over the rounded part of the dolly. These dollies are smoothly finished to prevent damaging the material you are forming.

They're the same specialty straight T-dollies auto body shops and fabricators use to form and shape sheetmetal flanges and edges.

### Features

- Set of 5
- Straight Dolly Section Size:
  - Ø13mm x 70mm (50 x 6 x 250mm Handle)
