Description

The New Metalmaster EWHD-65 has been designed as the “Little Brother” of our EWHD-80 English Wheel to give you the rigidity of a steel plate design machine at an economical price. With side frames manufactured from 8mm thick steel plate & heavy steel tube legs giving the EWHD-65 the right mix of rigidity & practicality for the craftsman wanting that higher level of finish and control while metal shaping. It is capable of shaping mild steel up to 1.6mm (16 gauge) and with a throat of 650mm giving you ample room to shape medium size panels. The upper wheel and 7 lower anvils are all hardened to 45-50HRC ensuring longer life and with a quick release anvil cradle for rapid and easy panel removal it makes this machine even more versatile.

Optional accessories - Nylon Lower Anvil sets & Urethane Bands are perfect when shaping aluminium or material requiring a mirror finish eg. Stainless Steel.
