Description

NEW GENERATION BENDING! Electromagnetic Sheet metal folding machines

Typical industries: Roofing, Aircraft, General Sheet Metal Fabrication

4.5 TONNE CLAMPING FORCE (with standard full-length clamp bar)

** See Video Machine in action**

Features

- Electromagnetic rather than mechanical clamping
- Bends all types of sheet metal, aluminium, copper, stainless steel
- Excellent design easy to use - forming deep channels and closed sections, deep boxes
- Additional bending clamp bars included, Size as follows; 25, 38, 52, 70, 140, 280 & 585mm
- Much greater versatility than conventional sheet metal benders
- No limitation to depth of boxes
- Can form deep channels, and completely closed sections.
- Automatic clamping and unclamping means faster operation, less fatigue
- Quick and accurate setting of angle stop
- Infinite length bending in stages is possible
- Accurate and continuous indication of beam angle
- Open ended design allows folding of complex shapes
- Machines can be ganged end-to-end for long bending
- Adapts easily to customised tooling (clamp bars of special cross-sections)
- Mild steel capacity is rated on hot rolled material with 250MPA

Includes

- Storage tray
- Adjustable backstops
- A complete set of short-length clamp-bars

Product Brochure For S5291

Special tooling can be quickly improvised from pieces of steel to help fold-up difficult shapes.
