Material (Type):	~
Suits:	MBR-610 & MBR-1070

Description

Based on customer feedback we designed a conversion kit to slow the speed of your bead roller down and gain more control over your work piece, especially for tight radius work. This simple to fit conversion kits allows you to reduce the speed by approximately 50% to maintain torque at slow speeds on our first-generation motorised bead rollers.

Features

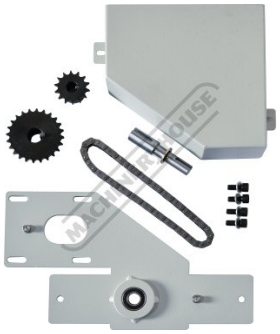

- Easily retrofittable to either the MBR-610 or MBR-1070 Metalmaster Bead Rollers
- Includes mounting hardware & safety cover
