Press Brake Die Film - Urethane

120mm wide x 0.5mm Thick x 35 Meters long

Ex GST	Inc GST
$450.00	$495.00

Order Code:	S9870
Model:	
Type:	Die Film
Size (mm):	120 x 0.5 - 35 meter roll &

Description

Press Brake Die Film is a urethane protective layer used in metal fabrication to prevent die marks, surface scratches, and cross-metal contamination during bending processes.

It's especially useful for materials like painted metals, aluminum, stainless steel, and other polished or finished metals that require a high-quality appearance without tool marks.

The urethane film creates a barrier between the metal and the press brake die, reducing the risk of rust or contamination that can arise from direct metal-to-metal contact.

Features

- 35 Meter roll, 120mm wide, 0.5mm thick
