Description

The HAFCO Garage Series Workbench & Storage System is a heavy-duty, space-efficient workshop storage solution designed for professional workshops, garages, tradespeople, mechanics and serious DIY users.

Built from durable steel construction and finished in the distinctive HAFCO style, this integrated workstation combines a large stainless steel work surface with generous drawer, cupboard and overhead storage.

The HAFCO system has been designed with practical workshop organisation in mind, providing dedicated storage for tools, equipment, consumables and everyday workshop essentials.

Compared with conventional workbench configurations, this model features larger overhead cabinets, five heavy-duty drawers, a dedicated bin dispenser, wipes holder/dispenser and a double-door bottom cabinet, providing greater flexibility for organising the modern workshop.

The integrated power outlets and USB charging ports provide convenient access to power directly at the workstation, allowing users to charge tools, devices and other equipment without having to run additional extension leads across the workshop.
