Description

Designed for accurate cutting of BSPT (British Standard Pipe Taper) threads, commonly used throughout Australian industry for pneumatic, hydraulic, water and general pipe fitting applications.

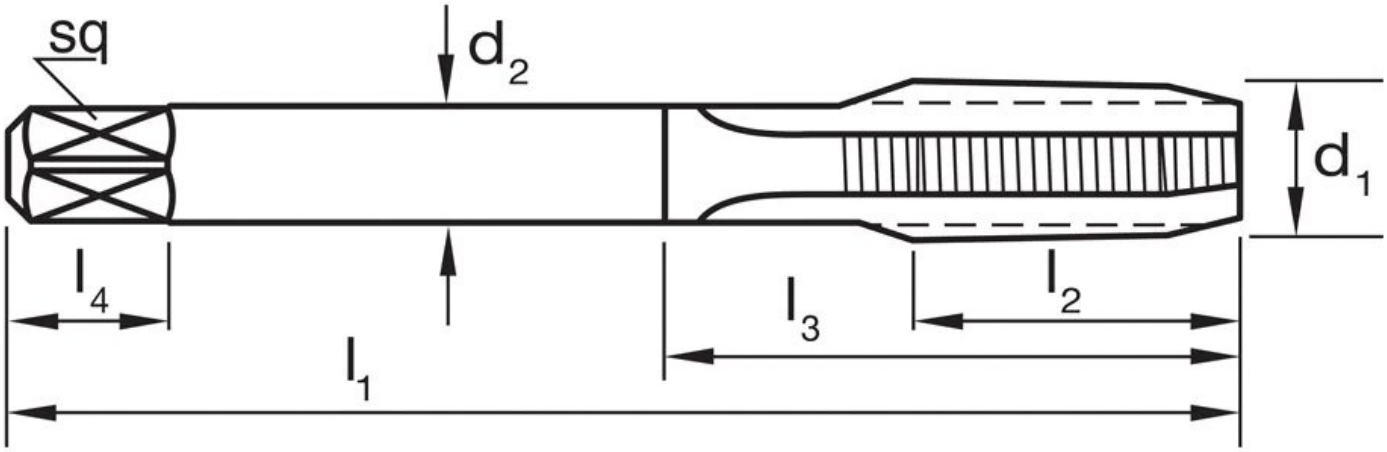

Manufactured from premium M35 High Speed Steel with 5% cobalt, these taps provide excellent hardness, heat resistance and cutting-edge durability. The TiCN (Titanium Carbonitride) coating increases wear resistance to help extend tool life, while precision CNC-ground threads deliver clean, accurate and consistent thread formation.

Manufactured to ISO 7-1 Standard, these taps are an excellent choice for workshops, maintenance, fabrication and production applications requiring reliable tapered pipe threads.
