## Plasma Cutting Attachment - PCA-4675

Side Mount or Bench Mount

ORDER CODE:	W08600
MODEL:	PCA-4675
Type:	Plasma Cutting Attachment
Table Hole Diameter (Ø):	Flat
Table Top Size (mm):	460 x 740
Table Height with Stand (mm):	~
Table Side Height (mm):	~
Top Plate Thickness (mm):	~
Grid Pattern (mm):	~
Table Slots (mm):	~
Table Load Capacity (kg):	~
Nett Weight (kg):	9.2

### Description

Design was developed in Australia to either side mount to a 3D welding table or surface mount to a bench or 1D welding table, the choice is yours.

It comes standard with 3 support arms that are precision laser from 6mm steel with 8 steel sacrificial cutting slats giving you a generous cutting surface of approximately 460mm x 740mm. The steel slats are easily replaceable with 40 x 3mm flat bar, readily available at most hardware or local steel suppliers, replace these slats with the same length or extend your attachment with longer flat bar giving you added flexibility. The design allows the slats to be secured in place to maintain rigidity while you work along with keeping a uniform work height to match your welding table.

NOTE - THIS ITEM COMES FLAT PACKED & REQUIRES ASSEMBLY & WELDING.

Additional equipment including a welder is required for assembly!
