## CNC Waterjet - WAZER PRO

The Waterjet for Any Shop - Now Cut Anything  
 50Hz International version

**WAZER**

**Ex GST**                      **Inc GST**  
**\$29,450.00**    **\$32,395.00**

ORDER CODE:	W08725
MODEL:	WAZER PRO
Cutting Table Capacity (mm):	305 x 460
Maximum Work Piece Weight (kg):	~
Maximum Cutting Thickness - (Material Dependent) (mm):	~
X Axis Travel (mm):	305
Y Axis Travel (mm):	460
Z Axis Travel (mm):	Manual
Z Gantry Clearance (mm):	~
Rapid Traverse ( X and Y axis ) (mm/mm):	1500
Absolute Positioning Accuracy (mm):	0.08
Repeatability (mm):	~
High Pressure Pump (Type):	~
Max Pump Pressure (psi):	8600
Max Water Usage (L/min):	1.9
Water Capacity (L):	~
CNC System (Type):	WAZER
Nesting Software:	WAZER WAM
Drawing File (Type):	.dxf, .svg
Garnet Delivery:	150g/min
Garnet Hopper Capacity (Kg):	19.1
Electrical Power (kW):	~
Max Current (Amps):	240VAC 15 amp
Input Air Pressure (Bar (PSI)):	~
Weight (Empty) (Kgs):	170
Operating Weight (Kgs):	360

### Description

Overview:

WAZER PRO can cut through sheets of any material including metal, stone, glass, ceramic, composites, plastic, rubber, and foam.

Cutting Area - 305 mm x 460 mm  
 Cut Bed Size - 330 mm x 485 mm  
 Kerf (width of cut) - 1.2 mm

Increased cutting pressures means the WAZER PRO can cut 2-4 times faster than the desktop model with the same abrasive rate, reducing consumable cost and running time considerably.

WAZER Pro cuts up to 25mm Aluminium, 10mm Mild & Stainless steel, 25mm Stone or rubber.

The WAZER PRO has with the ability to cut submerged up to 10mm for quieter cutting.

The absolute zero locating feature allows you to easily create re-useable fixtures for repeat jobs.

Fitted with a water spray Nozzle allowing cut components to be cleaned inside the WAZER PRO.

WAZER WAM Design Software

Wazer Pro operates with an online file prep tool called WAM. WAM will work with any software capable of exporting a design as a .dxf or .svg file. WAM eliminates the need to have a laptop at the machine workstation. Here is a typical workflow:

1. Create your design in any design software/CAD program which can export .dxf or .svg files
2. Upload your file into WAM, position your design, choose a material setting and cut quality.
3. Save your cut file from WAM to an SD card.
4. Insert the SD card into WAZER and cut!

### Features

- Cuts Any Material: Metal, Stone, Glass, Ceramic, Composite, Plastic, Rubber and Foam.
- Compact size fits in any work space.
- Brings professional-grade fabrication into any workshop.

Product Brochure For W08725

- Ideal for on demand cutting of custom parts.
- In-house capabilities reduces costly outsourcing.
- Great for prototyping, manufacturing, fine art, and instruction.
- Simple set up. Just connect to standard electricity, water, and drain.
- Cold cutting. No heat. No fumes. No need for ventilation.
- Quickly go from design to cutting. Takes any DXF or SVG file.
- CE Certified with safety interlocks on top cover

**Includes**

- WAZER PRO 50Hz International Version
- 1 x Cut Bed
- 1 x Spray Nozzle
- 2 x Abrasive Bucket
- 2 x Water Sensors
- 1 x Accessory Kit
- 1 x Setup Kit
- 1 x Plumbing Kit
- 1 x User Manual

**Optional Accessories**

- WAZER Cut Bed 3 Pack
- WAZER Nozzle

**With all that Power, the WAZER Pro cuts Fast, and cuts Thick materials.**

Material Type	Cut Speed (Compared to Desktop)
Metal	2-3x
Glass	4x
Plastic	3-5x
Composites	5-10x
Tile	4x
Rubber	2-3x
Foam	2-3x

Material	Max Thickness Pro	Max Thickness Desktop
Aluminum	25.4 mm	13 mm
Mild Steel & Stainless Steel	10 mm	5 mm
Plastic	25.4 mm	13-19 mm
Carbon Fiber	25.4 mm	8 mm
Stone	25.4 mm	13 mm
Rubber	25.4 mm	13-19 mm
