Description

Hold stock using the Inside or Outside edges!

Hold stock from the outside, leaving clearance for inside welds, or hold stock from the inside for outside welds.

Features

- Hold and position sheet metal, round pipes, square, angled or flat stock
- The Inside / Outside Angle Magnets are constructed from two independent rectangular magnets for consistent, undiminished magnetic force when both sides are attached to workpieces
- Use mounting holes to link two magnets together for use as fixturing elements
- Use hex hole on magnet for breakaway leverage
