Product Brochure For W144A

Ø0.8mm Aluminium MIG Welding Wire - 5356

0.45kg Roll

On Sale

	Ex GST	Inc GST
	~~$24.00~~	~~$26.40~~
	$20.91	$23.00

ORDER CODE:	W144A
Wire Type:	Aluminium
Wire Diameter (mm):	Ø0.8
Wire Weight (kg):	0.45

Description

UNIMIG 5356 Aluminium MIG Wire is one of the highest quality aluminium welding wires available due to its consistent feed ability which is accomplished through the use of advanced wire drawing technology and a proprietary triple shaving process. 5356 is sometimes referred to as “marine grade” because it is widely used in the marine industry and it’s very commonly found in general fabrication applications as well. The major element in 5356 wire is 5% magnesium. The wire has excellent weldability and corrosion resistance.

Features

- Approvals:
- ABS • TUV • DB
