Product Brochure For W171F

Air Cooled Arc Torchology® TIG Welding Torch - T2

DINSE Connector
4 Metre

Special Order

Ex GST	Inc GST
$380.00	$418.00

ORDER CODE:	W171F
MODEL:	T2 - DINSE
Lead Length (m):	4
Connector Type:	DINSE
Connector Size (mm):	35/50
Maximum Amp Rating (amp):	190

Description

The ARC TORCHOLOGY® T2 TIG Torch has been designed for maximum performance and longer consumable lifecycles. Thanks to exclusive torch technologies, this torch boasts a 30% better power to weight ratio compared to standard UNIMIG torches – more power in a lightweight body! The T2 TIG Torch also comes with a flex-neck torch head as standard, perfect for TIG welding in tighter and restrictive environments.

FORCE COOL™ TECHNOLOGY:
A highly effective series of passages and wells force cool the collet, maximising conductivity and extending consumable life.

HEAT ZONE ISOLATION™ TECHNOLOGY:
Transferred heat from the ceramic cup is isolated by a unique external barrier resulting in cooler running torches with increased power to weight performance ratios.

TUNGSTEN RELEASE SYSTEM™:
Trouble free extension of the electrode with a 180° twist of the back cap. There is no need to remove any other wear parts to extend the electrode.

FLEX-NECK TORCH HEAD:
ARC TORCHOLOGY® Torches come with a flexible torch head as standard. Simply bend your torch head into any angle you need, allowing you to access tight and cramped spaces.

Features

- ARC TORCHOLOGY® T2 TIG Torch
- 190A AIR COOLED TIG WELDING TORCH
- Rating:190Amp DC, 135Amp AC @ 35% duty cycle.
- Designed for operator comfort

- Cooling Method: Air Cooled
- Duty Cycle: DC35% @ 190 Amps
- Duty Cycle: AC35% @ 135 Amps
- Dinse Style: 35/50
- Length 4 Metre
