Rota Turntable - 102A

TIG

ORDER CODE:	W196
MODEL:	102A (TIG)
Primary Input Voltage (V):	240
Rated Power (W):	120
Primary Fuse Rating (amp):	2
Load Capacity (kg):	100
Revolutions Per Minute (RPM):	0.2 - 3.31
Maximum Torque (Nm):	70
Noise Level (dBA):	Less than 70
Adjustable Angular Range (deg):	From 0° - up to 999°
Table Diameter (mm):	400
Tilt Angle (deg):	6 x 22,5° = 135°
Class of Protection:	I
Enclosure Rating:	IP 20
Dimensions (mm):	620 x 400 x 353
Nett Weight (kg):	68

Description

The ROTA 102 turntable enables the positioning and rotation of a work piece up to 100kg in weight. With fully electronic controls, speed, angle and timing can be set with complete precision, enabling accuracy and continuity when welding multiple pieces.

The ROTA 102 comes in two models, ROTA 102A designed specifically for TIG welding with a slower revolution and the ROTA 102B with a faster turning speed for MIG welding.

Features

- Includes Foot Control
- 0.2 - 3.31 rev/min
