Welding Electrodes - Multi-Purpose - ESB-44

(Ø2.5 x 350mm x Qty 10) & (Ø3.25 x 350mm x Qty 5)

ORDER CODE:	W211
MODEL:	ESB-44
Type:	Multi-Purpose
Size & Quantity Supplied:	Ø2.5 x 350mm x 10 & Ø3.25 x 350mm x 5

 magmaweld

Description

Multi-purpose electrode suitable for structural steelwork, workshop and maintenance welding. Smooth and clean welds, blending into base metal without undercuts. Excellent gap bridging properties. The double covering of this electrode produces a stable, concentrated and directed arc, thus being ideally suited for root pass and positional welding. Welds are of X-ray quality.

Features

- Covered electrode for welding unalloyed and low-alloy steels basic covering
