Welding Electrodes - Ø2.5mm General Purpose - ESR-11

350mm Long Electrodes

2.5kg Pack

ORDER CODE:	W216A
MODEL:	ESR-11
Type:	General Purpose
Size & Quantity Supplied:	Ø2.5mm x 2.5kg Pack

 magmaweld

Description

General-purpose electrode for structural steelwork, workshop and maintenance welding. Easily operated in positional welding, including vertically-down. Good gap-bridging. Possible to use equally well both with AC and DC. Smooth arc, well suited for tack-welding due to it's easy arc striking and restriking properties. Welds are smooth, slightly concave and blending into base metal without undercutting. Slag is self-releasing in most cases. Suitable for welding on galvanised, primer painted and slightly rusted components.
