Chisel Size & Type:	11mm Square Rougher & 12mm Diameter Finisher & 28 x 10mm Diamond Detailer

Description

The HAFCO WOODMASTER 3-piece Tungsten Carbide-Tipped Woodturning Tool Set is an easy and economical entry into woodturning. Designed for beginners and hobbyists, this set includes three compact carbide tools ideal for shaping, finishing, and fine detailing on smaller projects.

Tungsten carbide cutters are simple to use—no sharpening required. Just keep the tool flat on the rest and start turning. Perfect for pens, small bowls, tight hollow forms, and detailed spindle work.

Each tool comes ready to use out of the box with a carbide cutter installed, plus a hex key for quick and easy tip rotation or replacement.

Built to last
Manufactured with C45 steel shafts and finished with durable chrome plating, these tools are hardened to HRC 92 for excellent strength and wear resistance. Ergonomic hardwood handles with reinforced ferrules provide comfort, control, and long-term durability in the workshop.

Why choose carbide tips?
Tungsten carbide cutters offer exceptional wear resistance and a significantly longer edge life than even cryogenically treated HSS. When the edge dulls, there's no sharpening required—simply rotate or replace the tip and get straight back to work. This reduces downtime while maintaining a consistent, high-quality finish.

Supplied in a deluxe foam-lined presentation box—perfect for storage or gifting.

Features

- Replaceable tungsten carbide-tipped cutters – no sharpening required
- No sharpening required – rotate or replace the tip when dull
- Chrome-plated C45 steel shafts for durability
- Hardwood handles with stainless ferrules
- Supplied ready to use with carbide cutters installed

Includes
