15mm - Round Carbide Insert

2 Piece Pack

Description

Keep your carbide woodturning tools performing at their best with these replacement round tungsten carbide inserts. Designed to suit compatible carbide woodturning chisels, the round profile is ideal for smooth finishing cuts, gentle shaping, and producing clean surfaces on bowls, spindles, and other turned projects.

Manufactured from wear-resistant tungsten carbide for long service life, these inserts can be rotated to a fresh cutting edge when worn, reducing downtime and eliminating the need for sharpening.

Features

- Replacement round tungsten carbide insert
- Suits compatible carbide woodturning chisels
- Ideal for finishing, shaping and smooth contour work
- Long-lasting tungsten carbide cutting edge
- Rotatable design provides multiple usable cutting edges
- No sharpening required
- Supplied as a convenient 2-piece pack
