The micro adjustable rip fence is full length and cam locked solidly onto rails at the front and rear of the table and can be used on either side of the blade. The included mitre guide slides in T-slot grooves in the table which are also located on either side of the blade. Both the blade height and tilt controls have large handles that are conveniently located on front & side of the table saw.
The cast iron saw table also has solid cast iron extension tables on both left & right side of the table that measures an attractive 1170 x 800mm in total.
