Consumable parts

All wear and spare parts are manufactured to the same specification as the OEM and are fully interchangeable.

Hanger Hook

A "plug and play" option, they encourage the operator to hang the torch off the ground where it is easy to locate.

Medium Ergo Trigger Assembly

Rapid field servicing ensured by a simple "plug and play" system. Switches can be exchanged in 5 seconds without the use of tools.

Knuckle Joint and Cable Support

Small movements of the handle and neck are possible independent of the cable assembly. A moulded polymer cable support increases flexibility and electrode support.

Spring Pins

Fitted with unbreakable spring loaded gun plug body pins.

Rear Cable Support

Extra length cable support systems ensure smooth and consistent wire feed at any angle.

Swan Necks

Manufactured to the same specification as the OEM.

Ergo Handle

A patented screwless design combines the ultimate in balance, positioning and ergonomics. Torch handles disassemble in 5 seconds for rapid fault analysis.
Top and bottom handle soft grips ensure all day welder comfort.

Hyperflex Cable Systems

Air cooled cable assemblies offer outstanding flexibility with the highest heat and abrasion resistance of any known cable.
The outer jacket is constructed from cross-linked polymers providing a tear proof outer with a burn threshold of 375°C.

Gun Plug Housing

Tough and damage resistant, housings and nuts are formed in robust glass-reinforced polymers encasing all conductive parts in accordance with EN60974-7.
