Spiral Cutter Head with Carbide Inserts

5 x Spirals with 45 Carbide Inserts

Suits Older P-200H Planer with Ø67mm Cutter Head & Ø17mm Spigot Shaft

ORDER CODE:	W762
Model:	W762
Suits Planer:	P-200H Older Model
Cutting Head Length (mm):	200
Suits Cutter Head Diameter (mm):	Ø67
Number of Spirals (No.):	5
Number of Carbide Inserts (No.):	45

Description

These cutting heads incorporate carbide inserts and are placed along the each spiral. This type of head greatly reduces cutting resistance and requires less horse power to cut. These spiral cutter heads are capable of cutting knotty wood, stringy wood and hard wood. If one insert edge is dull or damaged you can rotate it to another edge as each insert has four cutting edges. The spiral cutter head generally produces smaller chips and less noise.

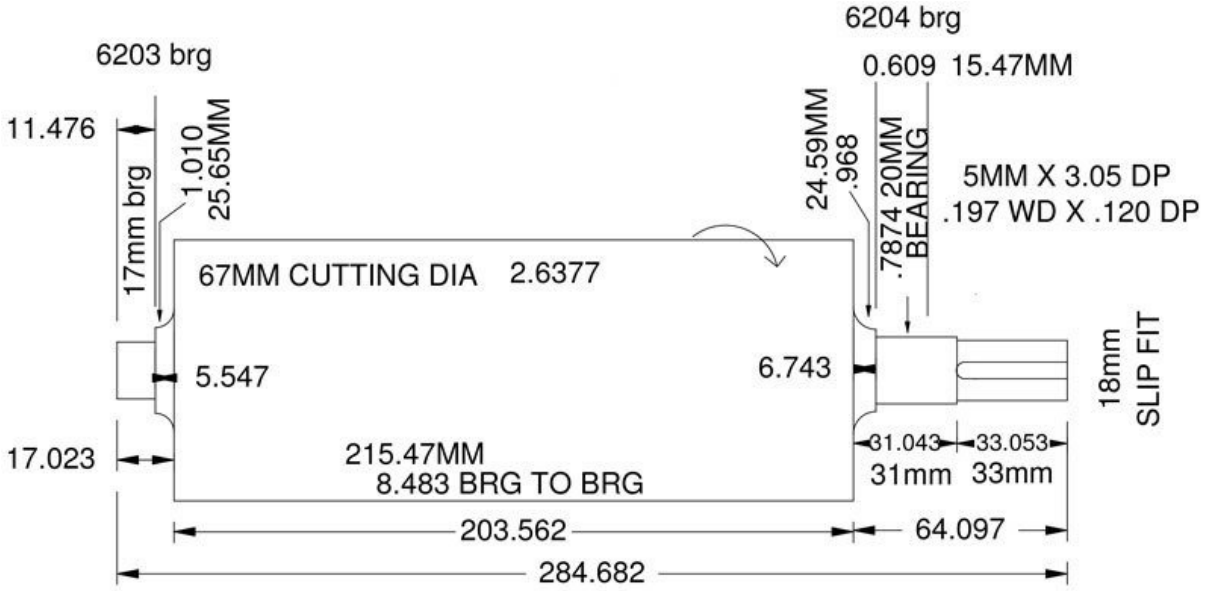

Features

- Retro fits to selected Hafco planer
- 5 x spiral head with carbide inserts
- Heads are pre-loaded with 45 carbide inserts
