PICKUP ONLY MELBOURNE

Have you had enough of drilling machines that can slip via their pulley & drive belt system? Then if this is happening to your drill in the workshop, I urge you to consider this GHD-22 Industrial 3 morse taper geared head drilling machine to eliminate that drive slippage.

This drill has all the common features that is required for e.g., large cast drill table with T-slots and rotates 360º, drilling speeds from 105 to 2900rpm, drill depth stop for accurate repeatability and a 16mm drill chuck with adaptor. Another notable feature to mention is that just like the rack & pinion drill table height adjustment, the drill head can also be adjusted up or down to suit the height for each operator.
