METALMASTER

Description

At last, there's an affordable solution for metal shaping. The PHM-940HD Metalmaster Electric Power Hammer was designed to have all the features of larger machines without the price tag. The ability to switch between rigid and non-rigid modes to suit your project makes this machine even more flexible. Only limited by your imagination the PHM-940HD can shrink, stretch, dome, edge turn, bead and form louvers, ideal for shaping sheet metal for cars, motorbikes & airplane panels. It has a 14mm thick steel fabricated upper frame and is supplied with and extensive range of CR12 hardened steel dies for shaping steel and nylon dies for forming softer metals like aluminium.It has variable speed and the capability of shaping up to 2.0mm thick sheet mild steel and up to 3.0mm thick sheet aluminium.
